

# NAUTILUS STAIR LIFT

Stepping up your Confidence and Independence

Our Stair Lifts Come with a FREE Lifetime Warranty on Motor & Circuit Board!

Safe, Quiet, Dependable, and Grease Free!

---

Nautilus is a leading brand of stair lifts and is inspired by those who are mobility challenged. Nautilus is driven to offer mobility and accessibility products that help or enable people to go where they want, when they want, how they want while being safe ... and lasting a lifetime.

Founded in 1993, we have a proud history of growth by evolving our product lines to enrich the lives of our customers. We give people the path to independence to remain in their home, enjoy their families, and be engaged in their communities. Through innovation we are committed to help people of all ages overcome their limited physical mobility at home and away. All Nautilus and Medallion stair lifts are assembled in the USA, which means quality you can depend on.

# Be Independent. Be Confident. Be Informed.

**You are not alone** -19 million people in the U.S. have disabilities that create problems walking, climbing or descending stairs; making it more difficult to stay in the home they love. Homes that are so often our foundation; where good times are had and memories are created.

Compounding this challenge - according to U.S. Department of Housing and Urban Development, 65% of single family/ attached homes in the U.S. have 2 levels or more. When you couple those statistics with those from U.S. Centers for Disease Control and Prevention – that every 11 seconds, an older adult is treated in the emergency room for a fall, modifying your home becomes a real consideration.

Don't let your staircase become an obstacle to your quality of life.

# Peace of Mind Benefits Only with Nautilus

There are many stair lifts to choose from in the marketplace. So what makes the Nautilus different and contributes to its lower cost of ownership?

- Zero Maintenance and lower energy bills from a low friction system
- Efficient motor that gives extended performance during power loss
- Helical Worm Gear and Nylon Polymer Gear Rack for a smooth ride and greater stability
- Optional Folding Rail Design
- Compact, Grease Free, Lifetime Warranty on ALL Parts. (2 years-batteries)

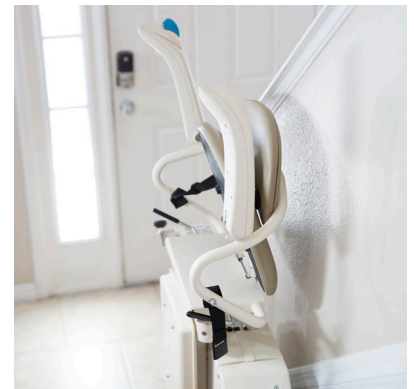

The Nautilus provides a weight capacity of either 300, 350 lbs or 600 lbs.

Oversized Helical Worm Gear with six points of contact for an energy efficient low friction design. That means a smooth and stable ride.

Nylon Polymer Gear Rack with steel reinforcement. Lubrication free. That means durability and ZERO maintenance.

The Nautilus is the world's most compact stair lift, folding closer to the wall. That means others can pass by easily and more room for you and fire/rescue.

# Nautilus Folding Rail Eliminates Trip Hazards

The Nautilus Folding Rail deploys automatically to keep walkways clear. This exclusive (patented) design option eliminates the need to stop and push a button or leave the seat. And its simple mechanical design makes it reliable and minimizes system failures. The folding rail option allows the unit to be charged when parked at the top, bottom, or in the raised (hinged) position.

Nautilus stair lifts come with two hand-held remotes so you may operate your chair without sitting on it, or a second user can call or send the chair as needed. The chair can be used as a "dumbwaiter" and items can be sent back and forth. No one needs to carry anything up and down the steps.

# What to Look for When Purchasing

Many stair lifts on the market have a 265 lbs - 300 lbs capacity. While that may be enough for some, there may be need for greater range. More than one family member (or visitors) may need to use the lift. No need to strain the motor or keep guests or other family members from using the lift. Plan on what you may need 5 or 10 years from now.

If these concerns are "weighing" on you, rest assured - our 350 lb or 600 lb weight capacity will provide you peace of mind knowing your lift will handle your total current and future needs.

## ZERO MAINTENANCE

---

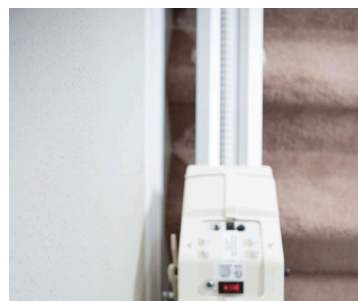

For most people that require a stair lift, performing regular maintenance on their lift is a challenge. The Nautilus is the only stair lift on the market that does not require lubrication due to its nylon polymer gear rack and worm gear and features a lifetime warranty on all parts. No mess, no fuss, and no expensive service contracts.

## Rail Size & Mounting

---

The Nautilus rail is best in class and sits just 3.5" - 5.5" high. The most compact lift on the market, the Nautilus folds to just 10.5", mounting as close as 0.5" from the wall, allowing for others to easily pass by when folded.

# The Nautilus Advantage

INDEPENDENT

CONFIDENT

INFORMED

The Nautilus stair lift gives you the freedom to go up and down the stairs with confidence. It gives Independence. It gives Peace of Mind. The Nautilus isn't just a stair lift, it's a quality of life. For those who own it and their families.

Designed for a Lifetime of Dependable Use!

The Nautilus Stair Lift by Harmar, made with you in mind.

*Every year, nearly 100,000 people make the decision to invest in a stair lift. Our family was one of them. We wanted the same easy access for our son that other families have without thinking of it.*

## Standard Features

Safety obstruction sensors.

Lifetime Parts warranty

Swivel seat for a safe exit

Wide footrests for stability and extra comfort.
